LOCOMOTIVE BLASTS

Notice to Railroad Men.

Your subscription to the Railroad Edition will be due this pay day, and all who not paid for same will please do so this pay day or as soon thereafter as possible.

Howell shops can now boast a General Foreman. Mr. E. J. Young, the oldest foreman, has been appointed to that capacity, his jurisdiction extending to all departments. John Bannon succeeds Mr. Young as foreman of the machine shop, while B. E. Branham succeeds Mr. Bannon as foreman of the erecting department.

The Nashville & Decatur Division has furnished Howell shops another engine for general overhauling in the 605.

Fireman Clarence Sterrett had his big toe on his right foot mashed the other day by a lump of coal falling on it. The cause of the whole trouble seems to be that he did not remove his foot until after the lump had fallen.

On account of the shortness of the days the Howell car, paint and planing mill departments have begun working nine hours a day.

For the past ten days the turn table at Earlington has been undergoing repairs, all engines having to be turned on the "Y" at the north end of the yard, while the necessary washing out of engines, usually done at Earlington, was attended to at Nashville and Howell.

Wm. Braun, the messenger in the car department at Howell, has been promoted to a job on trucks. William is all smiles now.

Master Mechanic Thos. Walsh spent the day with Foreman O'Brien at the Earlington shops last Friday.

One of the clerks in the master mechanic's office at Howell has a mania for long hair. He is not a football player, nor a poet, but just simple daffy on long hair. He never thinks of having it cut, or even trimmed, until every barber in town has quit smiling at him as he passes their shop. Naturally, when he had some of the wool taken off his cranium the other day last week, the curiosity of the people was aroused as to who had the courage to tackle the job, and one of the boys ventured to ask about it. "Well! well!" he exclaimed, "where did you have it cut?" The ready reply was, "On my head, of course."

Fireman C. C. Edens and wife are visiting in Owensboro, Ky.

H. A. Brooks took charge as switch fireman at Henderson last Sunday in place of J. G. Holloway, who was glad enough to get back on a road engine on the St. Louis division.

The new depot of the L. & N. is now the gate-way to Evansville. At any rate they have put up a lot of gates.

Earlington boarding houses were so crowded last Sunday night that engineer George Lockwood was obliged to go all the way to Howell to get a bed to sleep in. It simply means that there is something doing in Earlington.

The Southern has at last found a master mechanic to fill the place made vacant by Dennis Brown some time ago at Princeton, Ind. The man is Mr. A. L. Robinson from the West.

Erank Sherman, after a stay at Earlington, has moved the air brake instruction car to Howell, where he will lecture St. Louis Division men for a while.

C. J. Martin is again behind the shovel on the South Local, after about a year's connection with the round house at Earlington at night, as hostler.

C. L. Craig is hostling now in place of C. J. Martin.

A prominent railroad man says: "I have been studying into the question of railroad ties and have about come to the conclusion that the day of the wooden railroad tie is fast drawing to a close."

"There are 45,000,000,000 feet of lumber cut in this country every year, which reduced to cords makes about 30,000,000 cords per annum. There are only about 300,000,000 cords of good marketable lumber left in this country and it is well scattered."

"The railroads of the United States are using 100,000,000 cross ties per annum, not including ties for new construction, which reduced to cords amounts to about 700,000 cords per annum."

"It is not surprising therefore that the price of railroad ties is advancing and that some of the leading roads are obliged to pay as high as 75 cents for them as compared with 30 cents a few years ago."

H. I. Davenport, foreman of the repair track here had his right leg pretty badly bruised Tuesday evening. While walking through an empty coal car, he accidentally stepped in a hole in the floor and fell, spraining his leg pretty bad.

Railroad Edition.

On account of several of the Henderson Division people who have lately become interested in the Special Railroad Edition THE BEE is getting out, and desire to be represented in the same, we have extended the extreme limit when photographs may be received until Oct. 15. This will not delay the edition any as it will only take a short while to get the cuts out after the photos are received. All who wish to take part in this Railroad Edition are urged to send in their photos at an early date.

MORPHINE.

Why Remain a Slave When You Can be Cured at Home?

An absolute, permanent and painless home cure for Morphine, Cocaine, Laudanum, Opium and other drug habits is guaranteed those following instructions. Our treatment is very simple and can be taken without the knowledge or assistance of other persons. We do not detain you from business and each case receives individual treatment from an experienced nerve specialist. Relief is immediate. Appetite is restored at once and sleep becomes normal at the beginning of the treatment. We restore the nervous and physical systems to their natural conditions because we remove the causes of the disease.

FREE TRIAL TREATMENT showing the perfect support our remedy gives will be sent on request. Confidential correspondence especially with physicians, solicited. Write today for our free book which gives our references, terms, etc. Manhattan Therapeutic Ass'n, Dep't B., 1135 Broadway, New York City.

Ayer's

Doctors first prescribed Ayer's Cherry Pectoral over 60 years ago. They use it today more than ever. They

Cherry Pectoral

rely upon it for colds, coughs, bronchitis, consumption. They will tell you how it heals inflamed lungs.

"I had a very bad cough for three years. Then I tried Ayer's Cherry Pectoral. My sore lungs were soon healed and my cough dropped away."

Mrs. Pearl Hyde, Guthrie Centre, Ia. For sale by J. C. Allen Co., Lowell, Mass.

One Ayer's Pill at bedtime induces a natural action next morning.

MINING NOTES.

A committee of miners in Telluride, Cal., has had a conference with the Citizens' Alliance looking to an arrangement whereby the miners of the district shall organize a new union independent of the Western Federation of Miners and resume work in the mines.

The New York Sun, reporting the case of Foreman Miller of the Government office said:

The Central Labor Union held a meeting last night at which the matter was fully discussed. The members of the union wish it understood that they are not opposing the nomination of Mr. Roosevelt, and that they will not make a political fight against him. At the same time the declaration was made at the meeting last night that, although the union does not intend to cause President Roosevelt political embarrassment, he has, by his declaration in favor of an open shop, "set back union organization twenty-five years."

An attempt to boycott a Chicago parade and prevent any bands or musicians taking part failed. Three bands defied the union and marched. There were bugle and fife and drum corps, pianolas, automatic organs, quartettes and soloists. The musicians were continuously cheered.

The Pittsburg Coal Company, the largest coal producing company in the world, has acquired the Corona Coal and Iron Company's coal mines in Walker county, Ala., through the absorption of the Monongahela Coal Company. The Corona is the largest coal producer in Walker county and has been of late years a competitor of Pittsburg coal on the lower Mississippi. As the leading figures in the Pittsburg Coal Company are also identified with the Steel Trust, that company appears to have acquired a foothold in Alabama. The deal is regarded as one of the most important ever made in Alabama.

Some of the leading citizens of Morganfield, Ky., have organized a mining corporation to operate in the zinc and lead fields of Crittenden county. The name of the company is the Glendale Mining Co., and has a capital stock of \$12,000. Mr. T. M. Dyer was elected president, G. L. Drury, secretary and treasurer, and Mr. Henry Walker, Mining superintendent.—Uniontown Telegram.

The Alabama Senate has passed the House bill prohibiting boycotting, blacklists, bans or picketing in the State, and provides for a punishment therefor. The bill was considered very strict and was opposed by the organized labor of the State.

Governor Yates, of Illinois, has set aside \$2,500 of the State money for a coal exhibit at the World's Fair at St. Louis in 1904.

Through the efforts of Professor Grimsley, of the Kansas Mineral Exhibit, the coal operators of Kansas will have a model coal mine in operation at the St. Louis World's Fair.

Mr. Tom Stone of the Hecla mine was off a few days attending court this week.

Mr. Charles Miles of the No. 11 mine has been off several days this week on account of ill-health.

Ernest Brinkley of the mechanical force was off a few days this week. While at work last Friday a piece of steel struck him in the eye and was the cause of him taking a few days rest.

Claud Long who is employed as a driver in the No. 9 mine had his foot caught between two cars last Saturday and badly mashed. While very painful it is not serious and he will be able to resume work in a few weeks.

HUGHES' CHILL TONIC

Better than Calomel and Quinine. Contains no Arsenic.

As well as a Sure Cure for Chills and Fevers, Malarial Fevers, Swamp Fevers and Bilious Fevers. Just what you need at this season.

Fayette county has to give \$500 the Kentucky fund at the St. Louis World's Fair, in addition to the amount raised by private subscription.

A number of art treasures collected by the late Gen. Cassius M. Clay from all parts of the world were sold last Thursday at auction in Richmond.

For a pleasant physis take Chamberlain's Stomach and Liver Tablets. Easy to take. Pleasant to take. For sale by St. Bernard Drug Store, Earlington; Ben T. Robinson, Merton's Capt. John K. Taylor, Earlington.

BONE FOOD

Soft and crooked bones mean bad feeding. Call the disease rickets if you want to. The growing child must eat the right food for growth. Bones must have bone food, blood must have blood food and so on through the list.

Scott's Emulsion is the right treatment for soft bones in children. Little doses every day give the stiffness and shape that healthy bones should have.

Bow legs become straighter, loose joints grow stronger and firmness comes to the soft heads.

Wrong food caused the trouble. Right food will cure it.

In thousands of cases Scott's Emulsion has proven to be the right food for soft bones in childhood.

Send for free sample. SCOTT & BOWNE, Chemists, 409-415 Pearl Street, New York. 50c and \$1.00; all druggists.

Teachers' Meeting.

Program of the Association of the Second District to be held Friday, Oct. 23, in the school building:
